#### List of Databases

Scopus
Drugdex
Poisindex
Clinical Key
Medicines Complete

**Scopus:** Scopus is the largest abstract and citation database of peer-reviewed literature: scientific journals, books and conference proceedings. Delivering a comprehensive overview of the world's research output in the fields of science, technology, medicine, social sciences, and arts and humanities, Scopus features smart tools to track, analyze and visualize research. Scopus has 66 million records dating back to 1823, 72% of these containing references dating from 1996. It covers over 22,748 peer-reviewed journals, 558 book serials, 320 trade journals, 7.7 Million conference papers & 28 Million Patents.

**Drugdex:** DRUGDEX is the ultimate drug resource with fully referenced, unbiased content covering dosage, pharmacokinetics, cautions, interactions, comparative efficacy, labeled and off-label indications, and clinical applications. DRUGDEX also spans international, FDA-approved, and nonprescription preparations.

**Poisindex:** The Micromedex® POISINDEX System from the Healthcare business of Thomson Reuters is a trusted, evidence-based resource to help identify, manage, and treat toxicological exposures.

**Clinical Key:** is a clinical search engine which includes

- All Elsevier medical and surgical journals (over 500)
- Selected third-party journals and content sources
- All Elsevier medical and surgical reference books (over 1000)
- All medical and surgical clinics of North America
- All First Consult point-of-care clinical monographs
- All Procedures Consult content and associated videos
- All Clinical Pharmacology drug monographs from Gold Standard
- All Elsevier medical and surgical videos (over 13,000)
- Millions of medical and surgical images
- Over 2,000 Practice Guidelines
- Elsevier and third-party published patient education handouts in both English and Spanish.

**Medicines Complete:** It is a trusted and world-leading resource from Pharmaceutical Press, London to support Continuing Professional Development. It delivers expert knowledge on drugs and medicines, helping pharmacists make the best clinical decisions for patient care. Rapid search of over 600,000 pages of evidence-based drug information can be done.

Medicines Complete offers tailored packages to suit our exact needs, whether we are an individual or looking for a subscription for our entire organisation. Our institution package covers 09 information sources namely British National Formulary (BNF), Martindale, AHFS, Stockley's Drug Interactions, Handbook on injectable drugs, Clarke's isolation of drugs, Pharmaceutical excipients and BNFC

### **List of Journals**

All the journals in the above databases are available as online.
